Applied Educational Solutions Student Attendance Policy

At Applied Educational Solutions we expect our learners to have a high level of attendance. This is to ensure that learners do not miss vital parts of their education. Learners with low attendance will fall behind academically and such absences can have a detrimental effect on their social, emotional and behavioural progress. We ask all parents and students that unless your child is unwell it is of most importance that they attend the school on a daily basis.

If there is a more personal reason you feel your child cannot attend please seek support and advice from the school senior management.

Policy reviewed March 2017
